Monday Wednesday Thursday Friday 1:00 – 1:50 P.M.
Monday 16 January 2006 through Friday 5 May 2006
except Monday 6 March 2006 through Friday 10 March 2006
Final Exam: TBA
1209 New Science Facility
Instructor: Andy Poe, 1129 New Science Facility, 227-1598

This class covers how to design a web page from scratch. (We will not be using FrontPage or anything like that.)

Text: No Required Textbook. A good (and cheap) reference book is *HTML for the World Wide Web with XHTML and CSS: Visual QuickStart Guide*, Fifth Edition, Elizabeth Castro, ISBN 0321130073. However, this book is not required. If you think you might be interested, check bookpool.com and amazon.com to see if you can get a decent price. The book I have been using as a teaching tool is *HTML & XHTML: The Complete Reference*, Fourth Edition, Thomas Powell, ISBN 0-07-222942-X.

Courseload: There will be weekly quizzes and frequent programming assignments. These will comprise 60% of your final grade. There will be two in-class exams each comprising 10%, and a final exam comprising 20%.

Office Hours: I will have office hours from 2:00 to 4:50 P.M. every day except Tuesday. If you cannot meet me at that time, you can schedule an appointment or just drop by; I might be free. (However, 12-1 is my lunch hour.)

Disability: If you have a need for disability-related accommodations or services, please inform the Coordinator of Disability Services in the Disability Services Office at 1104 University Center (227-1737). Reasonable and effective accommodations and services will be provided to students if requests are made in a timely manner, with appropriate documentation, in accordance with federal, state, and University guidelines.
