Instructor: Andy Poe, 1129 New Science Facility, 227-1598

The course covers the object oriented design paradigm of programming, and is required for the Computer Science and Network Computing majors. You will learn how to design objects for efficient use and reuse of code.

We will be learning the Visual C# language to accomplish this.

Text: No Text

Laptop Policy: Although this is a Computer Science course, the use of a laptop in class is forbidden in class and on exams. There will be exceptions to this policy, such as when we install software or when we have lab days. But, in general, if I'm lecturing, no laptops, or any other distracting electronic equipment such as Walkmans, iPods, cell phones, etc.

Courseload: There will be no exams. The assignments will be a series of (sometimes quite challenging) C# programs that exemplify the power of object-oriented design. There will also be weekly quizzes comprising 10% of the grade..

Office Hours: 2:00 – 3:00 P.M., 4:00 – 5:00 P.M. Monday, Wednesday, Thursday, Friday. Other hours are available by appointment, or you can just drop by. If I'm free, I'm happy to talk with you. However, please respect my lunch hour (12:00 P.M. – 1:00 P.M.). Because of irregularly scheduled meetings, office hours on Tuesday are difficult to arrange.
