

NORTHERN MICHIGAN UNIVERSITY
CS 326-01
FALL 2002
OBJECT ORIENTED DESIGN

3 credits

Monday Wednesday Friday 11:00–11:50 A.M.

Monday 26 August 2002 through Friday 6 December 2002, except Monday 2 September 2002, Friday 11 October 2002, Friday 1 November 2002, and Wednesday 27 November 2002 through Friday 29 November 2002

“Final Exam”: Wednesday 11 December 2002 10:00–11:50 A.M.

2911 West Science

Instructor: Andy Poe, 1129 New Science Facility, 227-1598

This course is REQUIRED for all Computer Science and Network Computing majors.

Text: *Object-Oriented Programming Featuring Graphical Applications in Java*, Michael J. Laszlo

This book is available at the Bottum University Center Bookstore, but you don't have to buy it there. You might want to check out amazon.com or bookpool.com for comparative pricing.

Courseload: There will be periodic assignments, most programming, a few written. There will be no exams. The final exam time listed above is only for last minute project completion. During the course, you will use object-oriented design techniques to build a sophisticated (and generic) application capable of solving specific problems. (Yes, that sounds cryptic. We'll discuss what that means.)

Office Hours: My office hours will be from 2:00 P.M.–4:50 P.M. Monday, Wednesday, Thursday, and Friday. Appointments need to be made to see me outside these times.

Disability: If you have a need for disability-related accommodations or services, please inform the Coordinator of Disability Services in the Disability Services Office at 1104 University Center (227-1737). Reasonable and effective accommodations and services will be provided to students if requests are made in a timely manner, with appropriate documentation, in accordance with federal, state, and University guidelines.
