## CS201 Introduction to C++

**Prerequisites:** CS122 (CS120 and co-enrollment in CS122 is accepted, but recommended only for a small number of students. Unless you have significant programming experience in addition to CS120, co-enrollment is not recommended)

**Texts:** *C/C++ Programmer's Reference* Schildt

This C++ book is by no means the only suitable reference for C++. You will likely need some book, but not necessarily this one.

### **Supplies:**

A computer with an internet connection is necessary. Free software is available.

### **General Information:**

This course is primarily a course in the C++ programming language. We will look at program organization, and specific design features of C++.

Grading will be done about and-half on tests (of which there will be two or three) and one-third on laboratory assignments.

### **Physical Disability Services:**

I will help you as I can, be sure to ask!

The Coordinator of Disability Services is in the Office of Student Support and Disability Services, room 2001 in the C. B. Hedgcock building. The phone number is 227-1700 TTY: 227-1543. Reasonable and effective accommodations and services will be provided to students if requests are made in a timely manner, with appropriate documentation, in accordance with federal, state, and University guidelines.
