

Syllabus for CS 101 -- Web Site Construction
Randy Appleton
1131 NSF
rappleto@nm.edu

Intro

CS 101 is a web site for people who want to learn to make web sites. I will assume you've never made a web site before but have basic computer literacy skills. If you've been programming for years or are still trying to figure out this "mouse" thing please come see me.

You are welcome to eat and drink in class. It's OK to be somewhat silly in class. Playing video games or IMing in class is not allowed.

There will be many web site homeworks. These will be worth 60% of the final grade. There will be two midterms, each with 10%, and a final worth 20%.

The class will cover
