

Memorandum

To: Ray Ventre, Chair – Graduate Programs Committee

From: Robert Winn, Chair – Biology Graduate Committee

Date: 11/13/07

Re: Graduate Credit for BI 406

The Biology Graduate Committee has carefully reviewed Dr. John Reber's proposal for inclusion of BI 406 – Advanced Cell Biology for graduate credit. The graduate committee recommended to the Biology department that the course be offered for graduate credit and the vote of the department was unanimous in favor the proposal.
